Thank you for choosing South Dakota Agricultural Labs! We do add analytes to our testing regiment throughout the year. If you don't find what you are looking for here, please call us at **(605) 692-7325**.

How much sample should you send?

Please send 30g of vegetation or 100g of soil to run an individual test. What does this look like? For vegetation, it would be about a quart sized bag packed full. If you have more than one test, please fill a gallon sized bag. For soil samples, please send 2 cups of soil, if more than one test is required, please send 4 cups.
